RE: Resource Recovery Certification RR0268B, Closure Notification,
Classification - U, McDonnell Douglas Tract II

Dear Mr. Haake:

The Permits Section of the Missouri Department of Natural Resources' Hazardous Waste Program has reviewed your letter dated February 2, 1999, to Mr. Daniel A. Carey, Environmental Engineer, of my staff, regarding the closure of the methyl ethyl ketone waste recovery process. In your letter, you described the final disposition of the unit as cleaned and sold as scrap metal for recycling. The resource recovery process, RR0268B, is considered closed based on the description of decontamination activities and the disposition of the unit as detailed in your letter.

If you have any questions regarding the above, please call Mr. Carey at (573) 751-3553.

Sincerely,

HAZARDOUS WASTE PROGRAM

Arthur H. Groner
Chief, Permits Section
